

Terrasoft®

Vase Mino | 250.180

Small, flexible, shapely - the vase series mino is, as the name suggests, the little sister of the vase line. Just as beautiful and purist, but designed for smaller plants or herbs, the Terrasoft Vase mino 180 cuts a fine figure both on the windowsill, on tables or in groups on the terrace.

A little bigger is the Terrasoft vase mino in the format 250 x 250 x 250 mm. If you put it in a small group in entrance areas, it looks particularly appealing. But also as a shapely single element, the square vase is an eye-catcher. Despite the low weight the vase is very stable and absolutely weather-resistant.

ADVANTAGES

- small dimensions
- stylish
- UV resistant
- weather resistant
- insulating: the plants are also protected in the winter months
- shatterproof: Rubber granulate adapts to the weather
- including inner pot

APPLICATION

On terraces and balconies, plants or herbs can be beautifully arranged in the mino Terrasoft vases. But you can also make counter and reception areas as impressive with the vase.
